

Introducing The AirTrim[®] AirFlex[®] Family

AirFlex[®] Mini

AirFlex[®] Standard

AirFlex[®] XL

As speeds of printing and converting speeds increase, effective trim waste removal escalates. Regardless of your size, production capacity and budget, the AirFlex Family of trim removal systems is your solution for reliable and effective trim waste handling.

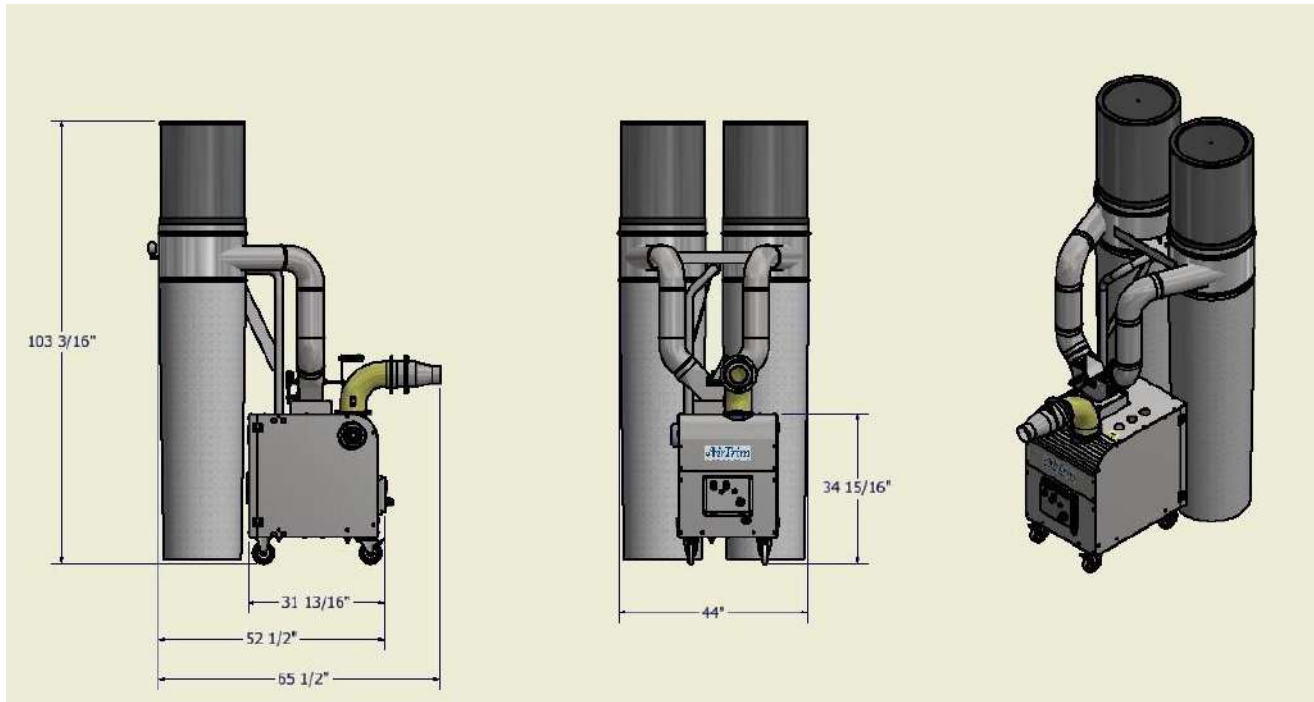

You need a proven design to fit your machine capacity, plant floor plan, product mix (paper, plastic, film, or foil), production (batch or continuous), and budget. It needs to be small, powerful, easy to use, and tough **but most important of all flexible to help you this year and for years to come.**

The AirFlex family includes **AirFlex[®] Mini**, **AirFlex[®] Standard**, and **AirFlex[®] XL**.

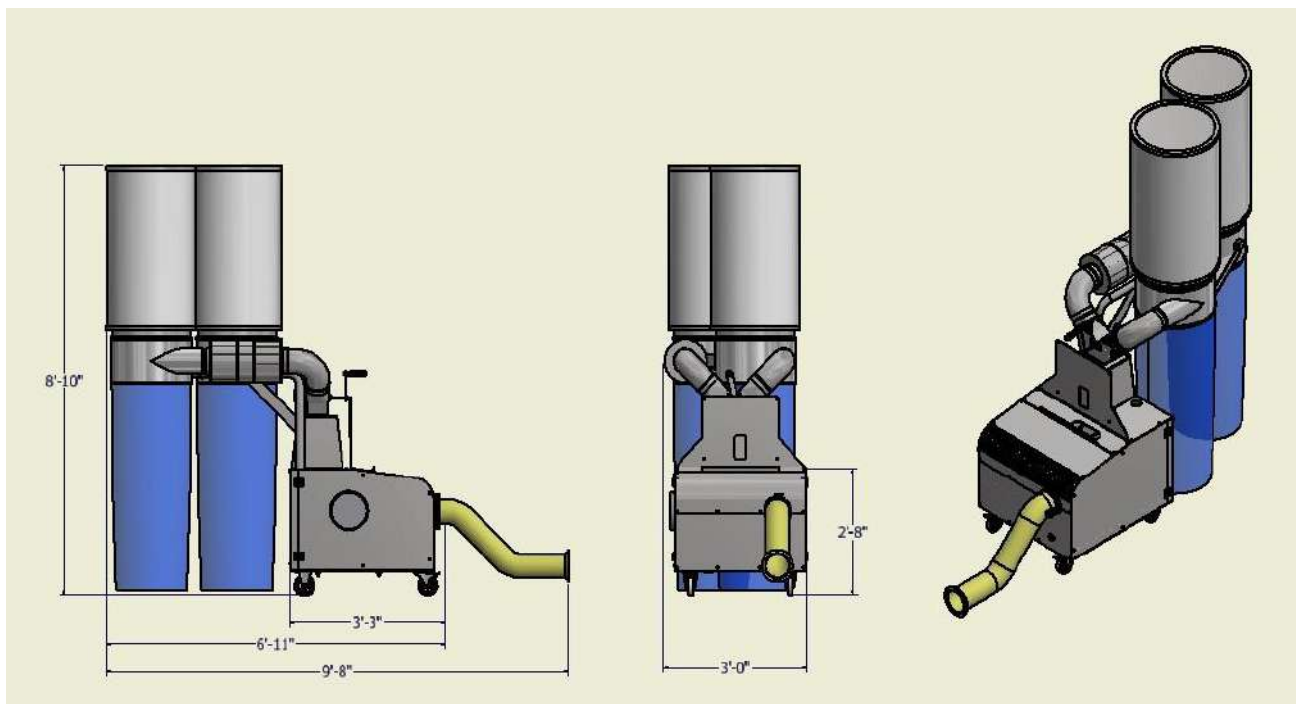

Check out the AirFlex Family Benefits

1. Permits printing and converting equipment operation at higher production speeds.
2. Reduces paper, plastic, foil, waste volume to lower waste removal costs.
3. Simplifies sorting waste and recyclable material at its source.
4. Accommodates both batch and continuous operations with dual bag discharge design.
5. Allows easy modification to intakes and discharge features to accommodate future production demands.
